

London Network Lead

About the Restart Project

Electronic waste is one of the fastest growing waste streams. We are all consuming too fast, and we feel frustrated when products fail. The Restart Project is a registered charity and social enterprise that helps people transform their relationship with electronics by teaching repair at community events, working with educators and makers, and speaking in public and online. We started as an all-volunteer organisation and volunteers still play a crucial role in supporting our team. We look at the big picture, on how to improve electronics for people and the planet, from design and manufacture all the way to end of life, and our community activities are central to this.

What we offer

We provide the chance to make a difference in a fun, eclectic and creative atmosphere, where work can move quickly and not be hampered by bureaucracy. We also have an ample training budget to support our staff members. We are based in central London and have flexible working hours.

This is a very part-time role, 0.2 FTE on a Fixed Term contract through February 2020. This role sits within the Community Team and reports to the Outreach Lead.

How to apply

Please send us a covering letter, or a video, (jobs@therestartproject.org) explaining why you are a great fit, and a CV by noon on 11th March.

Responsibilities

- Manage the calendar of Restart events in London - balance of events in different neighbourhoods and at varied times/days to maximise accessibility of our events
- Support London Restart Party hosts to use our online tools, access equipment and recruit volunteers
- Build and maintain a relationship with Restart Party hosts and other members of the network
- Working with volunteer coordinators to plan and deliver volunteer welcome sessions

- Build a strong working relationship with the volunteer coordinators and support them to plan and deliver skillshares and socials for the London Restarter community
- Support the creation of new Restarter groups in London including helping to plan and host Restart Parties

Essential skills / experience

- Highly organised with experience of managing calendars
- Ability to work one-to-one, and in groups, with all kinds of people
- Ability to articulate and embody community values
- Experience with volunteer engagement and management
- Understanding of open ways of working and fostering diversity in practice
- Delivering community electronics repair events
- Events management
- An awareness of health and safety
- Good communication and support, both in writing and in person
- Connecting the local to the global

Great-to-haves

- Experience using tools like Meetup, online collaboration tools
- Experience working in an innovative, mission-driven organisation
- Passion for saving the planet, electronic waste, gadgets and/or making
- Public speaking experience
